About EOC Tech

Mission Statement

Empowering individuals, employers, and communities to achieve success.

Vision Statement

Excellence through education and training.

Core Values

- Service: We value open communication and are committed to providing quality services and opportunities.
- Professionalism: We value ethical practices and encourage personal and professional growth.
- Recognition: We value the accomplishments of students and staff.

THE 4 R's:

- Ready to Learn: Follow Instructions | Ask for Help | Stay on Task | Listen | Work with Others
- Responsible: Follow Instructions | Stay on Task | Ask for Permission | Manage Time Well | Accept Consequences
- Respectful: Follow Instructions | Greet Others | Listen | Disagree Appropriately | Address Authority Appropriately
- Ready to Work: Follow Instructions | Ask for Help | Stay on Task | Share with Others | Work with Others

Campus Facilities

Eastern Oklahoma County Technology Center (EOC Tech) was constructed in 1982 on an eighty-acre site in Eastern Oklahoma County, just north of Choctaw, Oklahoma. The facility has 101,081 square feet of floor space and hard surface parking for over 500 cars. All classrooms are air-conditioned. Complete ventilation systems and safety equipment are installed in all shops. All shops and labs are equipped with the latest models of equipment and each career program is completely equipped to handle training experiences for all students. Eastern Oklahoma County Technology Center serves the schools districts of Choctaw-Nicoma Park, Harrah, Jones, and Luther.

EOC Tech's campus is comprised of 4 buildings: Main Building, Adult Day Center, Business Development Center, and Public Services. A map of EOC Tech's campus is available upon request.

EOC Tech has instructional, laboratory, and other physical facilities related to many career programs. The Academic Center is designed to assist all students with testing. There are two academic specialists that provide assistance with Math that may be required in a career major, and assistance with written communication and job preparedness. The EMT and the CNA career majors both have labs that provide students with hands-on practice of skills necessary in these professions.

Persons Designated to Provide Consumer Information

Kristy Johnson, Financial Aid Coordinator, and Chris Helling, Director of Instructional Services, are designated as the employees responsible for disbursing information to all students at Eastern Oklahoma County Technology Center, District #23. They may be reached at (405) 390-5344, or (405) 390-5309, respectively.

Kristy Johnson, Financial Aid Coordinator, is available to assist students and to discuss questions a student might have regarding financial aid options at EOCTC at (405) 390-5344, or kjohnson@eocotech.edu. If Mrs. Johnson cannot be reached, students may also contact Katie Waibel, Student Services Administrative Assistant, at (405) 390-5343, or kwaibel@eocotech.edu.

Accreditations

Eastern Oklahoma County Technology Center (EOCTC) is accredited by the Oklahoma State Board of Career and Technology Education (ODCTE) and the Oklahoma State Department of Education (OSDE). The curriculum in each career major must meet OSDE and ODCTE criteria. Firefighter-EMT Academy, and EMT Academy are also approved by the Oklahoma Department of Veterans Affairs State Approving Agency for VA Educational Benefits.

Current or prospective students wishing to review documents describing the institutions accreditation, approval or licensing should submit a written request to the Director of Educational Services or the Director of Instructional Services. Within ten (10) working days of submission of the request, documentation will be made available for inspection.

Several career programs have also been accredited by their related professional organizations:

- Early Care & Education - Nat'l Association for the Education of Young Children (NAEYC)
- Automotive Service Technology - Automotive Service Excellence (ASE)
- HVAC – Partnerships for Air Conditioning, Heating, Refrigeration Accreditation (PAHRA)
- Welding - American Welding Society (AWS)
- Paramedic - Committee on Accreditation of Allied Health Education Career Programs (CAAHEP)

Class Schedules

High School and Full-Time , Daytime Adult Students

The EOCTC school year consists of 175 days. A secondary student (high school student) may attend the morning session or the afternoon session. A post-secondary student (adult student) may attend the morning session or the afternoon session or both sessions. An adult student can attend half-time for 525 hours or full-time for 1,050 hours in a school year. Students will be allowed a 10-minute break for each session. Class hours are as follows for daytime classes: ADULTS: 8:00 a.m. - 11:00 a.m. and afternoon 12:00 p.m. - 3:00 p.m. HIGH SCHOOL: Schedules dependent upon partner sending school schedules.

Pell Grant students must attend at least 24 clock hours per week to be considered as full-time, or attend at least 12 clock hours per week to be considered as half-time. For VA purposes, full-time status requires at least 22 clock hours per week, and half-time status requires at least 11 clock hours per week (Sun-Sat).

EXPLORE Program for Secondary Students

This program is an elective semester course for high school sophomores. There is no prerequisite. Transportation is provided by EOCTC and is the students' only transportation option.

Students receive an initial four-week orientation to the CareerTech and college connection, career assessment through OKCareerGuide.com, career planning, and general safety. After completing the orientation period, students may choose up to five career programs to explore for three-week rotation periods.

The following are the class schedules for EXPLORE students:

- HHS & JHS Sophomores 1st & 2nd periods, approximately 8:20 am – 9:30 am
- CHS Sophomores 2nd period, approximately 9:30 am - 11:05 am
- JHS Sophomores 4th & 5th periods, approximately 12:00 pm - 1:30 pm
- LHS Sophomores 5th & 6th periods, approximately 12:00 pm - 1:30 pm
- HHS Sophomores 6th & 7th periods, approximately 1:30 pm - 2:35 pm

Admissions and Enrollment for Full-Time Career Majors

High School Students (In-District)

Contact your High School Counselor about enrollment at EOCTC. Juniors and seniors at Choctaw, Harrah, Jones or Luther schools may enroll during regular high school enrollment periods and receive credit toward their high school enrollment periods and receive credit toward their high school diploma. Students may choose from AM or PM class periods. There is no tuition charge for high school students. The procedure is as follows:

1. Talk to counselor at your high school.
2. Complete EOCTC pre-enrollment form with either your High School Counselor or an EOCTC Student Services Advisor.
3. Watch for postcard sent out in Spring announcing the “Summer Up” schedule for May-June.
4. Attend “Summer Up” in May-June to complete paperwork and finalize enrollment.
5. Students are not enrolled at EOCTC until enrollment is finalized at “Summer Up”.
6. Career programs fill up quickly. Missing “Summer Up” may jeopardize being able to enroll in the career program of choice indicated on the pre-enrollment form.

Home-School Students (In-District and Out-of-District)

Students being home-schooled or attending private school must be at least 16 on or before November 1st in the year of enrollment to be admitted and allowed to enroll at EOCTC. Students may attend in the AM or PM and will be considered as high school students. Transportation is the responsibility of the individual and must be in compliance with established guidelines and policies of EOCTC.

Students will need to provide sufficient evidence of participation in a home-school situation and meet the following admission requirements:

1. Residence/Tuition Agreement – an applicant residing in the EOCTC district is not charged tuition for the duration of that residency. An applicant residing out-of-district may be accepted pending career program availability, and may be required to pay tuition.
2. Provide a current copy of immunization records or letter of exemption.
3. Meet the prerequisites established for the career program.
4. Provide a valid transcript; or provide a written curriculum outline for the course of study provided to the individual two years prior to application for admission or duration of home-schooled time, if less than two years.
5. Provide a report of mid-term and/or final test scores for the course of study which must include formal class hours per week in which the applicant has participated.
6. Provide standardized test results from a nationally-recognized standardized assessment administered within the last 1 year. Other assessments may be considered.
7. Once admission requirements have been met, the student will complete an enrollment application and may be enrolled in the career program of choice if there is space available.

High School Students (Out-Of-District)

An out-of-district high school student may be admitted to Eastern Oklahoma County Technology Center if their Tech Center does not have a program of interest and EOC Tech does. The admission process is as follows:

1. Make an appointment with your Technology Center’s advisor about your desire to attend EOC Tech. That advisor will contact Student Services at EOC Tech, (405) 390-9591, to discuss the possibility of admission.
2. Go to your High School Counselor and request the following be sent or taken to: EOC Tech, Attn: Student Services, 4601 N. Choctaw Rd, Choctaw, OK 73020:
 - Current Transcript
 - Attendance Records
 - Discipline Records
3. Schedule and take EOC Tech Assessment Test.

Admissions and Enrollment for Full-Time Career Majors - cont'd

4. A phone call from your High School Counselor is required to discuss enrollment time-frame possibilities.
5. Once all the above is completed, an EOC Tech Student Services Advisor will contact you to set up an appointment to discuss the possibility of admission.
6. High school students who reside outside of the EOC Tech district may be charged for career major costs.

Once all materials and the interview have been completed, the Administration and Student Services personnel will determine acceptance into EOC Tech. Be advised that EOC Tech will admit in-district students as a priority; if space is available, out-of-district students may be admitted.

Eastern Oklahoma County Technology Center District No. 23 will not be responsible to pay student tuitions for any student to enroll in a skills program, secondary or post-secondary, at technology schools outside of District 23's boundaries (EOCTC Board Policy 527).

Full-Time Adult Students (FT)

Adult students interested in enrolling at EOCTC must contact a Student Services Advisor to discuss career program availability and career advisement. Note: EMT and Fire Academy have special admission and enrollment procedures. Please contact the EMT/Fire Administrative Assistant in Public Services at 405.390.5315 for more information.

The FT Adult admission and enrollment processes are as follows:

1. Schedule an appointment to take an assessment test. Dates are limited and are usually on Wednesday.
2. Begin the application process for financial aid, e.g. FAFSA, VA, Tribal, etc., in order to have required documentation ready at time of enrollment.
3. Contact Student Services and schedule an appointment with a Student Services Advisor to review assessment testing and career program choices.
 - a. Bring a copy of High School Diploma, High School Transcript, or GED.
 - b. Complete Adult Student Information form to complete the pre-enrollment process.
4. Adult students will be sent a letter in Spring notifying them of the Enrollment Intake dates in May-June.
 - a. Students will need to call Student Services to schedule their Enrollment Intake appointment.
 - b. Students should finalize their financial aid paperwork before the Enrollment Intake date.
5. Students will meet with a Student Services Advisor on that date to finalize the student's enrollment and to discuss how the student will pay tuition.
6. Students will pay tuition not covered by funding agency or FAFSA.
7. Provide evidence of all previous education and/or training. All previous education and/or training is evaluated and given credit when appropriate.
8. Students who pre-enroll for the fall semester receive a letter about Orientation and the 1st day of classes.

**Students no longer enrolled or attending high school must be at least 16 years of age and have the permission of their parent/guardian to enroll as an adult student. A signed consent from the high school principal of the school district in which they reside is also required. However, the student is not eligible for financial aid from EOC Tech.*

Architecture & Construction

Residential/Comm. Electrician's Assistant

AC0030092

Program Description

Students receive instruction and guided practice to develop the necessary skills for entry-level employment in the Electrical Trades Industry. These skills include the identification, usage, and care of equipment as well as tools and meters associated with the electrical field. Students work with planning, layout, and installation of electrical circuits that conform to local and national code requirements, for both residential and commercial installations. Other areas of focus include: proper safety techniques, advanced electrical theory, and the National Electric Code. Successful completion of this program prepares students for an interesting and challenging career in the field of Electrical Trades. Students also receive up to one thousand and fifty (1,050) hours toward the required eight thousand (8,000) hours for application to take the Journeyman Electrician Examination.

Residential HVAC Installer

AC0030009

Program Description

This career major is an introduction to air conditioning and refrigeration, exploring career opportunities in the HVAC/R industry, personal safety and work practices, and personal protective equipment. Students will be instructed on more advanced skills such as fitting, ducts, lining out pipes and blowers, connecting electrical wiring between controls, and basic refrigeration. Upon completion of this career major, students will be set to start up HVAC/R and install Residential HVAC Equipment.

3D Design and Modeling Technician

AC0020013

Program Description

Help bring your clients' design ideas to life as a modeling and design technician. This program will teach you the essential elements of computer aided drafting and design using the same computer software as design and engineering professionals. You'll learn how to create 2D drawings and blueprints for parts/assemblies/buildings and how to successfully present your designs to clients using custom animation and 3D virtual walk-through models. The possibilities in 3D Modeling and Design are as endless as your creativity! In this career, one day you might work with clients to design a detailed building and the next day you could find yourself helping a business owner maximize the space they have for equipment in a commercial building.

Arts, Audio/Video Tech. & Communications

Graphic Design 2

AR0040065

Program Description

This program is designed for creative students interested in an exciting career in graphic design, screen printing, commercial/personal car wrapping, or large format vinyl graphics. The program teaches the necessary steps of conceptualizing artwork to how it is applied in the industry. Students receive hands-on training with modern, industry-standard equipment and the latest software available. Students will master communication and job skills and will also have the opportunity to receive Adobe's ACA Certification in Photoshop, Illustrator, and InDesign.

CNA-Phlebotomy-EKG Technician

HL0010050

Program Description

This program is ideal for students interested in a career in nursing plus diagnostic services. It will provide students with the basic knowledge and skills necessary to assist individuals in residential care, group homes, and sheltered workshops with medication. It includes administration of medications, measuring and charting, vital signs and legal aspects. Embedded is Basic Life Support (BLS) Healthcare Provider CPR training and credentialing. The program allows the student the opportunity to gain advanced standing credit in a licensed practical nurse program. This program also teaches students the methods of drawing blood and practices different techniques of collecting blood from patients and donors; students will learn to operate electrocardiogram equipment to monitor the patient's heart rhythm. Students will learn to interpret and evaluate electrocardiogram tracings. Students will participate in practicum experience for an EKG technician in laboratory and clinical settings that utilize EKG monitors.

Early Care & Education Master Teacher

HL0010001

Program Description

This career major prepares students to be licensed teachers in the early care and education facilities responsible for general supervision, development, and education of children. In addition to learning how to attend to children's basic needs, students learn to organize activities that stimulate a child's physical, emotional, intellectual, social and creative growth. Instruction occurs in the classroom and laboratory as well as supervised practicum experience. Successful completion of Master Teacher curriculum with three months full-time experience meets the Licensing and Stars criteria of Oklahoma for Master Teacher. Embedded within this course is Basic Life Support (BLS) Healthcare Provider CPR training and credentialing. All students will complete CPR training.

Information Technology

Information Technology Specialist

IT0020001

Program Description

This major prepares students to repair, service and troubleshoot personal computers and computer-related equipment and to install and configure operating systems and application software. Students also learn to install, configure and support an organization's local area network (LAN). Students in this major gain the technical skills required for CompTIA A+ and Network+ industry certifications. Students are eligible for Rose State College Credit through this career major.

Pipe Welder

MN0070031

Program Description

This career major teaches students quality welding for a variety of construction and manufacturing jobs using multiple structural welding techniques. Instruction covers welding theory and safety, fabrication, layout, print readings, symbols, math, welding codes, metal characteristics/properties and Oxy-Fuel cutting. Students learn to perform high quality welds in accordance with welding procedure specifications used in a variety of welding occupations. Students also gain an introduction to pipe welding skills using SMAW, FCAW, and GTAW techniques.

Prerequisites: Structural Welder, and Instructor Approval.

Automotive Service Technician - ASE Aligned

TR0080025

Program Description

Students in this major will cover the skills necessary to become an entry-level technician. Students will concentrate on courses in introduction, brakes, steering & suspension, electrical/electronics, engine performance, heating and air conditioning, engine repair, automatic transmission, and manual drivetrain & axles. Students will learn how to diagnose and complete brake service, perform vehicle steering & suspension alignment, as well as electronic theory, and electrical/electronic diagnostics. Students will cover engine performance diagnostics and techniques for repair using a variety of diagnostic equipment. This career major includes automotive heating and air conditioning. The student will learn how to evacuate and recharge air conditioning systems using the proper refrigerant, as well as diagnostics of the heat and air conditioning systems. This career major is intended to provide courses closely aligned with NATEF hours and tasks. ASE certification is recommended and industry-recognized.

Non-Structural Repair Technician

TR0090026

Program Description

Students in this major will learn how to complete non-structural collision repair and automotive refinishing. The courses that will be covered include non-structural damage analysis and minor dent repair, plastics repair and all aspects of painting and refinishing. Students will also learn how to use various tools in repairing damage and will learn to remove and install handles, moldings, trim, and bolted body parts. In addition, the student will learn to MIG weld to industry standard following I-CAR standards. This career major also includes painting preparation, sanding processes, color matching and adjusting color, removing and installing glass, and the process of written estimates. Students will learn about handling, storage and disposal of hazardous materials and selecting proper personal protective equipment and maintenance. The hours completed in this career major are aligned with ASE standards.

Schedule:

Monday - Friday
AM - HHS, JHS and CHS
PM - JHS, LHS and HHS

Course Length

One Semester

Sending School Class Periods:

Harrah	6 th and 7 th Hour
Jones	1 st and 2 nd Hour
Choctaw	2 nd or 3 rd Hour
Luther	5 th Hour

Transportation:

Provided by EOC Tech (only option)

For More Information:

jgerry@eoctech.edu or (405) 390.5365

Sophomore Elective Course

Explore 2024-2025

**An adventure is waiting to happen,
EXPLORE the possibilities!**

The Explore experience is an 85-minute daily class for Sophomores on the EOC Tech Center campus. Students spend one semester in the EXPLORE program and receive an initial four week orientation to the CareerTech and college connection, career assessment through OKCareerGuide.com, career planning, and general safety. After completing the orientation period, students choose up to five programs to explore for three week rotation periods at a time. Students may choose from:

3D Design & Modeling

Accounting

Automotive Service Technician

Basic Firefighter

Biomedical Science

Business, Management & Administration

CNA / Phlebotomy / EKG Technician

Combination Collision Repair Technician

Digital Cinema

Digital Photography

Early Care & Education

Graphic Design

Hospitality & Food Service

HVAC

Information Technology

Residential/Commercial Electrician's Assistant

STEM Pathways

Welding

Helpful Attributes

Creativity

Dependability

Positive Attitude

Punctuality

Tribal Assistance

Average OKC Salary:

\$20 - \$24/hr

Health Science

EMT Academy

HL0010011

Program Description

Core 1st Aid and Healthcare Provider CPR is included in this Career Major. Students in this major learn about airway management, how to perform patient assessment, response and treatment of patients in common medical emergencies as well as management of trauma patients. They gain fundamental knowledge of EMS operational roles and responsibilities, including ethics, to ensure safe and effective response, scene management, and transport of patients. Students practice in a variety of settings chosen by the instructor. **PREREQUISITE: High school Diploma or Equivalent**

Career Major Information | Total Hours: 366

Law, Public Safety, Corrections & Security

Firefighter-EMT Academy

LW0020061

Program Description

This career major includes both EMT Basic and Fire Portion coursework. In EMT Basic, students will earn Core 1st Aid, Healthcare Provider CPR, airway management, how to perform patient assessment, response and treatment of patients in common medical emergencies as well as management of trauma patients. They gain fundamental knowledge of EMT operational roles and responsibilities, including ethics, to ensure sage and effective response, scene management, and transport of patients. Students must obtain EMT Basic certification by passing the National Registry of EMT Basic exam (NREMTB) to work in the EMT field. In the Fire Portion, coursework focuses on fire prevention, safety, investigation, terminology, detection, suppression, building construction, fire and emergency services and fire department organization and management.

PREREQUISITE: High school Diploma or Equivalent

Student Services

Navigating through the educational process at times can present challenges and opportunities. EOCTC is committed to helping students achieve their educational and career goals. We invite you to come by and visit our offices at any time. Our goal is to assist you and make your educational experiences at EOCTC the best! The following is a summary of the services available to students enrolled at EOCTC:

Full-Time Career Major Information

The Full-Time Career Majors currently have A-Glance sheets that include career major course sequences, the approximate length it will take to complete the career major, cost of tuition and other estimated costs, available certifications, and student organization program. The At-A-Glance sheets may be requested from Katie Waibel, Student Services Administrative Assistant at (405) 390-5343, or kwaibel@eocotech.edu.

Plan of Study

Adult Students will meet with Advisors and their instructors to review the student's Plan of Study. The Plan of Study covers the following: (1) Career major information; (2) Course grades; (3) Workplace/College information; (4) Progress towards a nationally-recognized certification; and (5) Enrollment options for next school year (last meeting of year).

Career Resource Center

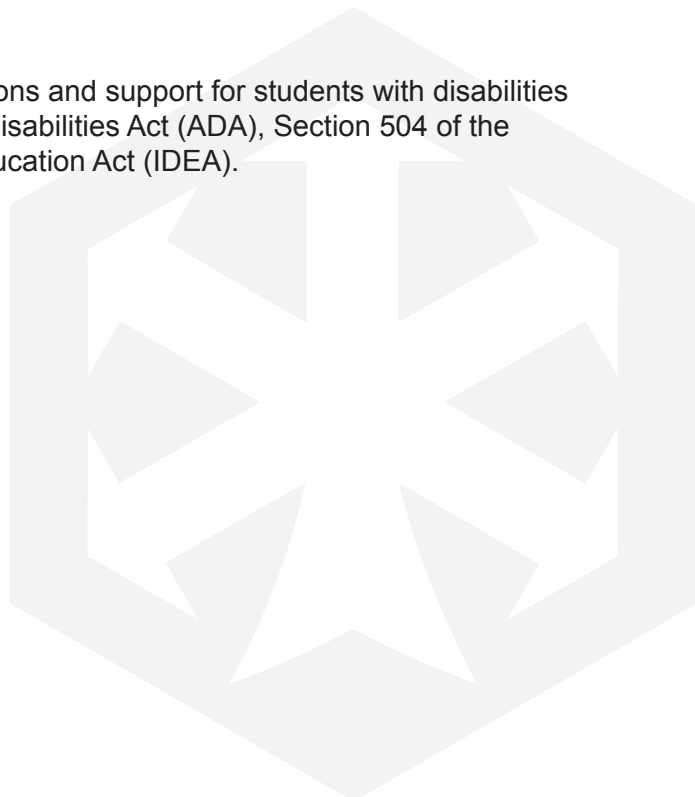

The Career Resource Center is designed to meet the educational needs of students by providing career resource assistance. Each student's level of achievement in basic education is determined through assessment. The CRC staff then provides individualized instruction in the areas of reading, language, and basic math. Computer-aided instruction is available for ACT and GED preparation. CRC services are available to both full and part time students as well as the residents of the EOCTC district by appointment. The CRC is open during regular school hours.

Counseling Services

Counseling services are offered to students to assist them in career preparation, career guidance and enrollment. The Student Services staff assists students in career planning, life skills, personal development, problem-solving and professional enhancement.

Special Accommodations

Eastern Oklahoma County provides reasonable accommodations and support for students with disabilities and special education needs covered by the Americans with Disabilities Act (ADA), Section 504 of the Rehabilitation Act of 1973, and Individuals with Disabilities Education Act (IDEA).

Student Services, cont'd

Eastern Oklahoma County Technology Center, in compliance with Section 504 of the Rehabilitation Act of 1973 insures: “No qualified person with a disability shall, on the basis of disability, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any career major or activity which receives or benefits from Federal financial assistance.”

- It is the policy of Eastern Oklahoma County Technology Center not to discriminate on the basis of disability in its educational career majors or activities.
- Accommodation for a disabled student is not about assuring success, but about ensuring equal access to a career major.
- A student seeking enrollment in an Eastern Oklahoma County Technology Center class, full-time or short-term, can request accommodations if they have a legitimate, documented disability (mental or physical impairment which substantially affects the student’s academic achievement).
- Students must provide documentation of disability, such as doctor’s statements, medical records, medical evaluations, Voc-Rehab assessments, etc.
- An adult student served by special education services in high school must provide documentation (copy of IEP, eligibility and psychological assessment) and request accommodations as an adult.
- Students requesting accommodations must meet attendance requirements and participate in the career major without being disruptive to the learning environment.
- Documentation and information about accommodation for a particular student is confidential and will be made available on a need-to-know basis only.
- Disabilities include “invisible disabilities” such as learning disabilities, chemical sensitivity, medical conditions, or temporary conditions resulting from accident or health related, etc.
- Illegal drug use, whether recreational or habitual, is not protected under ADA.
- The school will provide accommodations only if:
 - The student requests accommodations;
 - The student needs accommodation to gain equal access to a career major; and
 - Proper and sufficient documentation is presented with the request for accommodation.
- Reasonable accommodations are not appropriate for a student under these circumstances:
 - The student or the student’s behavior poses a direct threat to the health and safety of others;
 - A substantial change to an essential element of the curriculum has been requested for consideration;
 - A substantial change in the manner in which you provide educational opportunity (separate facilities, home-based instruction, etc.) has been requested for consideration; or
 - The requested accommodation presents an undue financial or administrative burden.
- Student disagreeing with the decisions reached by school personnel for accommodations necessary for access to educational career programming and/or facilities may request a hearing before an impartial hearing officer.
- Please contact the Special Needs Advisor in Student Services for more information and/or to request special accommodations.

Job Placement (except EMT and FAC)

EOCTC will assist with job placement in a variety of ways, but does not guarantee every student a job. Although a job placement advisor is not on staff, other services are available to help students gain employment. Job vacancies are posted online on the school website at www.eoclive.com/jobboard.

Instructors assist students with placement. Since the instructors work closely with area companies, they frequently become aware of job opportunities. Job search skills classes are taught to help students with the complex process of finding employment. Job placement assistance will be available for at least six months after graduation.

Work Based Learning (except EMT and FAC)

Work Based Learning with an equal employment opportunity employer is available to secondary and adult students who have met the requirements set forth by their instructor(s). The student must meet the standards established by EOC Tech and home high school (for secondary students) including attendance, academic performance and discipline policies.

Student Services, cont'd

Prior approval must be given by the Director of Educational Services or the Director of Instructional Services before a student is allowed to be placed. A student's placement may be revoked at any time if sub-standard performance is witnessed by the employer or is affecting school work.

Shadowing opportunities may be available to students in the 1st year to observe professionals in their respective occupations. This is dependent on the Career Major requirements. Both work based learning and shadowing experiences vary with each Career Major. Instructors are responsible for arranging and monitoring these experiences.

Student Organizations (except EMT and FAC)

Membership in various career student organizations offered at EOCTC is an integral part of the instruction in each career major. Students are encouraged to participate in these activities which provide an opportunity to develop leadership potential and social experiences for professional development.

Members also will have the opportunity to participate in local, state, and national skill and leadership contests. Organizations available at EOCTC include Skills USA, Health Occupation Students of America (HOSA), Family Career and Community Leaders of America (FCCLA) and Business Professionals of America (BPA).

EOCTC also participates with the National Technical Honor Society (NTHS) which recognizes outstanding career tech students. Nomination requirements for NTHS include the following: (1) "A" average for 2 consecutive nine-week periods, for the 1st and 2nd nine weeks or 2nd and 3rd nine weeks; (2) No more than 3 excused/unexcused absences combined (does not count school activities) during 2 consecutive nine-week periods; (3) Student must be a member of their Career Tech student organization; (4) Recommendation from instructor; and (5) Student must be attending full-time.

Transfer of Credit (Advanced Standing)

Students who would like to be considered for advanced standing should present industry certifications to the Registrar when deciding which career major to enroll during the admission process. The Registrar will contact the instructor and will evaluate previous education and/or training documentation and determine whether or not the student may receive advanced standing for EOCTC courses in the student's major of choice. Advanced standing reduces the total number of career major course/hours that the student will need to complete at EOCTC.

When a student completes EOCTC courses with at least a 70%/C grade average in one major and then changes to another major, advanced standing will be given for those EOCTC courses which are duplicated in the second major. The only exception is the EMT majors, which are not eligible for partial credit if the student has to re-take an EMT major in the future.

NOTE FOR EMT AND FIRE ACADEMY PROGRAMS ONLY:

Students applying for Veteran's Educational Benefits must have prior education and training evaluated for possible advanced standing credit. Students cannot be certified for benefits until this evaluation has been completed. Students are responsible for providing college transcripts and the Joint Services Transcript (or the CCAF for Air Force only) to the School Certifying Official (SCO) in the Financial Aid Office which will be used in this evaluation.

Academic Contracts (College Credit)

The Cooperative Alliance Program is a partnership between Eastern Oklahoma County Technology Center and Rose State College (RSC). This partnership allows high school and adult students the opportunity to earn college credit at RSC for completing course work at the technology center. Students have the opportunity to build a college transcript while still in high school. Note: The grade(s) you receive from the technology center will be transcribed on a Rose State transcript. **Cost: \$8.00 per credit hour to be paid by the student to Rose State College.**

Student Services, cont'd

The following Career Majors at EOC Technology Center offer College Credit:

- Business Management Administration/Accounting
- Digital Media
- Early Care and Education of Children
- Graphic Design
- STEM Pathways

To find out more about specific hours available for college credit contact Trisha Christensen at tchristensen@eoctech.edu or (405) 390-6605.

Distance Learning (Rose State Courses)

Distance learning is an opportunity for juniors and seniors in high school to earn college credit concurrently through Rose State College. These courses are available at EOCTC to ALL sending school students, including: Choctaw, Harrah, Luther, Jones, and Life Christian Academy. This service is also available to adult students who are finishing a major or certification with EOCTC. Students who are interested should contact Kim Gunn at kgunn@eoctech.edu, or (405) 390-5354.

The classes are broadcasted via Interactive Television (ITV) system. In order to participate in concurrent enrollment as a high school junior, you must have a minimum ACT composite score of 21. As a senior in high school, you must have a minimum ACT composite score of 19. Note: Students must have a 19 sub score in English to enroll in English Comp I and a sub score of 21 in Mathematics to enroll in College Algebra.

The next step is to contact Jan Bugby, the Director of Academic Outreach/Distance Education at Rose State College. You must go through Jan to ensure you are enrolled in the correct section at EOCTC. She can be reached at 405-733-7951. A concurrent enrollment packet can be picked up in the counseling office or filled out on the Rose State College website. Students must be admitted and enrolled before the 1st day of classes for Rose State.

The following is a list of Rose State Courses that are usually available via Interactive Television:

- English Comp I
- American Federal Government
- Introduction to Psychology
- U.S. History since 1877
- College Algebra

Courses are usually offered on M-W or T-Th for 1 hr. 15 min. between the hours of 8:00 a.m. and 3:15 p.m. Schedules will be finalized in spring/early summer and available in Student Services.

In addition, there are usually courses available online. The following is a list of the possible online courses:

- English Comp I
- English Comp II
- U.S. History to 1877
- U.S. History since 1877
- American Federal Government
- College Algebra
- General Physical Science
- Introduction to Psychology

To find out more distance learning, students should contact **Kim Gunn at kgunn@eoctech.edu, or at (405) 390-5354.**

Tuition and Other Charges

Career Major Tuition Charges (except EMT and FAC)

Adults who are enrolled in full-time, daytime career majors will be charged \$2.25 per clock hour based on the length of the career major in which they are enrolled for the 2024-2025 school year. For example, if the career major has 900 clock hours, the tuition charged will be \$2,025.00.

The full-time student will be billed for half of the tuition for the fall semester and half for the spring semester. Using the example above, the student would owe \$1,012.50 for the fall semester and \$1,012.50 for the spring semester.

The half-time student will be billed for a quarter of the tuition for the fall semester and a quarter for the spring semester. Using the example above, the student would owe \$506.25 for the fall semester and \$506.25 for the spring semester. The remaining balance will be billed the same way in the following school year.

Students may apply for the EOCTC Payment Plan with the Financial Aid Coordinator. The Financial Aid Coordinator will prepare the Student Payment Contract and will meet with the student to review and sign. A copy of Student Payment Contract is given to the student because it includes the amounts owed and the date that each payment is due. All payments are receipted by the Bursar located across from Student Services. The payment plan allows the semester amount owed to be divided into 4 payments of 25% each, e.g. \$253.50 | \$253.00 | \$253.00 | \$253.00.

If the student has confirmed financial aid eligibility, then those amounts are deducted from the Tuition charged and the payment plan is applied to anything not covered by financial aid. Please contact Kristy Johnson, Financial Aid Coordinator, at (405) 390-5314 or at kjohnson@eoctech.edu, if you have any questions.

Career Major Payment Information (except EMT and FAC)

All payments are receipted by the Bursar, Mrs. Self, located across from Student Services. Students may pay with cash, check or credit card.

Adult students are responsible for payment arrangements through self-pay, financial aid, EOCTC Next Step Scholarship, tribal assistance, and/or outside agencies before enrollment. Generally, payments are due no later than the 1st day of August. Payment plan arrangements may be requested by contacting Kristy Johnson, Financial Aid Coordinator. The student will sign a Student Payment Contract. See the EOCTC Payment Plan section below or the Student Handbook for more information.

Students usually enroll in one career major at a time. Once a student completes all of the coursework within a Career Major, they may continue in a new career major. However, students must see a Student Services Advisor to be enrolled in subsequent career majors. The Registrar will determine advanced standing for courses already completed at EOCTC and amount of additional Tuition charges that may be owed at that time.

There are no tuition charges for secondary or home school students who reside in the EOCTC district. Secondary students who are out-of-district and home school students who do not reside in the EOCTC district may be charged for Tuition based on the length of the career major. However, there may be other charges, for all students, that are out-of-pocket depending on the career major. Please refer to the Program At-a-Glance sheets or contact an advisor for more information.

Pell Grant students will be granted an "extension of credit" after the Financial Aid Coordinator has received a valid Free Application for Federal Student Aid (FAFSA) from a student who is enrolled in a Pell-eligible career major. A valid FAFSA means that the student has satisfactorily completed the verification process and any conflicting information has been resolved as determined by the Financial Aid Coordinator.

Tuition and Other Charges, con't

Payments for tuition will automatically be deducted from student's Pell Grant disbursement checks until all career major charges have been paid in full. Any remaining Pell Grant amounts will be disbursed to the student as described in the Award Letter. Students who qualify for a partial Pell Grant that doesn't cover the career major tuition total will be required to pay the difference by the 1st day of class, unless a payment plan has been requested and approved by the Financial Aid Coordinator.

Students receiving tuition assistance from an outside agency will be allowed to defer payment of career major school charges upon receipt by the Financial Aid Coordinator of an authorization letter and/or contract from that agency.

Payment from Funding Sources

If a student has confirmed eligibility with more than one funding source, e.g. Pell Grant, etc., the Pell Grant is usually applied to the account charges 1st and any other funding sources are disbursed to the student to assist them with other educational expenses like transportation, uniforms, child care, etc. If the funding source is considered to be "tuition specific", those funds have to be applied to the student's account 1st and cannot be disbursed to the student, e.g. WIAO, DRS.

If there are still unpaid school charges once the Pell Grant has been applied, then other funding sources like OTAG, OK Promise, tribal, etc., are applied to the student account. Any funding in excess of the student's school charges is disbursed to the student. If there are unpaid school charges after all funding sources have been applied, the student must self-pay the remaining balance by the 1st day of attendance. If a student has applied for a payment plan, the student would be required to self-pay 25% of the remaining school charges by the 1st day of attendance, or by the deadline set for EMT and Fire Academy programs.

EOCTC Payment Plan

Students can apply for the EOCTC Payment Plan by contacting the Financial Aid Coordinator. Students must complete the application form, and the Financial Aid Coordinator will then set up the Student Payment Contract. The payment plan policy requires 25% of the school charges as the 1st payment, 25% as the second payment, 25% as the third payment and 25% as the fourth and final payment. If the student has confirmed eligibility with the Pell Grant, OTAG, OK Promise, VA, tribal, etc., then those deferred amounts are deducted from the school charges and the payment plan is applied to anything not covered by financial assistance.

Other Career Major Costs

For all Career Majors (except for EMT and FAC), required books, supplies and tools are included in the Tuition charge. The books, supplies and tools purchased by EOCTC remain the property of EOCTC. Students are responsible for the care of all school-owned property assigned to them. All students may be required to pay for replacements if items are lost or stolen, and for certifications.

However, there may be other charges that are out-of-pocket depending on the career major. Please refer to the Program At-a-Glance sheets or contact an advisor for more information.

EOCTC does not offer housing or board for its students. All students live off-campus and commute. Transportation on an EOCTC bus is available from each of the four district high schools for secondary students.

EMT and Fire Academy Career Majors have school charges, with books, supplies and uniforms being out-of-pocket expenses that are the responsibility of the student to acquire. Students should contact Dana Robertson, EMT/Fire Administrative Assistant at (405) 390-5315 for more information.

Add/Drop Dates

The Add/Drop Date for Full-Time Programs (except for EMT/FAC) is Day 4 of Instruction. The Add/Drop Date for EMT and Fire Academy Programs is Day 1 of Instruction.
